

## Description

Frame panel door with frosted glass inlay, finished with rich African Wenge veneer. This Mahogany group wood is known for its stability and high rot resistance and rich chocolate brown tones. The frame is made of solid pine wood planks, connected on micro studs. Lined with MDF and finished with **African Wenge** veneer. Tempered frosted glass inlay is framed with raised solid wood wenge veneered moldings. Three layers of varnish with interim grinding and polish give the door its semi-gloss smoothness.

All **interior doors** are coated with natural wood veneer, which require no further treatment of the slab. We use only the finest materials and construction techniques available on the market, which makes our products quality and appearance absolutely superb. Our products are built to last and are covered with a two year warranty guaranteed.
