Veuillez conserver ce manuel et le code de produit pour votre référence future
et au besoin la commandent les pièces de rechange.

*Please keep this manual and product code number for future reference
and replacement parts ordering if necessary*

LIRE ATTENTIVEMENT AVANT DE COMMENCER
IL EST RECOMMANDÉ DE PORTER DES LUNETTES DE SÉCURITÉ EN TOUT TEMPS LORS DE
L'INSTALLATION

INSTALLATION SUR LES LES TUILES EN CÉRAMIQUE

Si votre porte de douche est installée sur des tuiles en céramique, les tuiles doivent être prolongées complètement sous les jambages muraux. Utilisez du composé aux silicones pour sceller le joint entre les tuiles en céramique et la base de la douche

ENTRETIEN DE LA PORTE DE DOUCHE

De temps à autre, nettoyez la porte et les panneaux latéraux avec une solution d'eau et détergent doux. Cela suffira pour conserver l'aspect neuf des panneaux de verre et du cadre d'aluminium. N'utilisez jamais de poudre ou tampons ou de récurage, ni d'instrument tranchants sur les surfaces en métal et en verre de la porte.

Des changements être apportés au produit sans préavis.

READ CAREFULLY AND COMPLETELY BEFORE PROCEEDING
IT IS RECOMMENDED THAT YOU WEAR SAFETY GLASSES AT ALL TIMES DURING INSTALLATION

INSTALLATION OVER CERAMIC TILE

If your shower door is to be installed over ceramic tiles, tile should extend completely under both wall jambs. Silicone should be used to seal the line where ceramic tile meet the base.

HOW TO CARE FOR YOUR DOOR

Never use scouring powder pads or sharp instruments on metal work or glass panels. An occasional wiping down with a mild detergent diluted in water is all that is needed to keep the panel and aluminum parts looking new.

Product specifications are subject to change without notice.
